

Car Search now Online!

Display your used cars on the AWN website!

online
management
tell everyone what you've got!

Inventory Updates

Your inventory and images are kept accurate, consistent and up to date across multiple web destinations.

Great Value Websites

Professional, competitively priced website creation and hosting as part of your internet advertising strategy.

Advertising Destinations

Your inventory, entered once and sent to all the major destinations you support, giving you consistent descriptions and photos everywhere you advertise.

Photo Management

Resize and rename your photos in one easy step. Tell the whole story with up to eight photos.

Print Media Uploads

Maximise campaign awareness by displaying your local print media adverts on your website.

Inventory Brochures

Professional brochures for emailing or printing with just one click.

Inventory Updates

This cost-effective service was developed exclusively for our loyal Motor Dealers to take advantage of our new marketing campaign - approximately 75,000 mailouts per year, informing our customers of all the services that AWN has to offer. Our aim is to increase your business, which in turn increases ours.

For only \$29.95 per month, paid directly to Dealer Solutions, you can display your used cars in the new Australian Warranty Network (AWN) Car Search. All leads go directly to you, the Motor Dealer, with no lead fees or hidden charges.

This is made possible by using the fantastic 'Online Manager' from Dealer Solutions. This system also includes some great features such as the ability to print stock brochures, statistics and adding markdown special prices to your stock list.

For a little extra each month, the Online Manager can also manage your stock data to any other online automotive website of your choice. You update your stock once, and it automatically updates in all of your chosen destinations. It couldn't be easier!
